Rheumatic fever in a high incidence population: the importance of monoarthritis and low grade fever, 321
- sudden infant death syndrome**, Nasal and intrapulmonary haemorrhage in sudden infant death syndrome, 116
- superior mesenteric artery**, Prediction of early tolerance to enteral feeding in preterm infants by measurement of superior mesenteric artery blood flow velocity, F42
- surveillance**, Nationwide study of haemolytic uraemic syndrome: clinical, microbiological, and epidemiological features, 125
- survival**, Reduction in case fatality rate from meningococcal disease associated with improved healthcare delivery, 386
- syringes**, Adrenaline syringes: community perspective: *letter*, 512
Appropriate prescription of epinephrine remains the best available treatment: *letter*, 513
Controversies in paediatrics?: *letter*, 512
Reply: *letter*, 513
- systematic review**, Varicella vaccination—a critical review of the evidence: *current topic*, 83
- systemic lupus erythematosus**, Peripheral gangrene during infancy: a rare presentation of systemic lupus erythematosus, 335
- telephone interview**, Quality of life in young adults with very low birth weight, F165
- testicular function**, Other implications of disposable nappies: *letter*, 269
- testicular temperature**, Other implications of disposable nappies: *letter*, 269
- tetraplegia**, Cerebral palsy: not always what it seems: *current topic*, 356
- thalassaemia**, Haemoglobinopathy as a cause of nucleated red cells in the fetus and neonate: *letter*, F147
- Thomas Willis**, Thomas Willis: the first paediatric neurologist?, 506
- thrombolysis**, Treatment of neonatal thrombus formation with recombinant tissue plasminogen activator: six years experience and review of the literature, F18
- thrombophlebitis**, Radial osteomyelitis as a complication of venous cannulation, 408
- thrombosis**, Early intracardiac thrombosis in preterm infants and thrombolysis with recombinant tissue type plasminogen activator, F66
Long term complications of inferior vena cava thrombosis, 228
Paradoxical embolism causing fatal myocardial infarction in a newborn infant, F137
- thrombus**, Treatment of neonatal thrombus formation with recombinant tissue plasminogen activator: six years experience and review of the literature, F18
- thyroid nodule**, Fine needle aspiration biopsy of thyroid nodules, 313
- tissue plasminogen activator**, Treatment of neonatal thrombus formation with recombinant tissue plasminogen activator: six years experience and review of the literature, F18
- tocolytics**, Effect of maternal tocolysis on the incidence of severe periventricular/intraventricular haemorrhage in very low birthweight infants, F13
- toxicity**, Paracetamol overdose in a preterm neonate, F70
- tracheal suction**, Ketamine for procedural pain relief in newborn infants, F53
- traditional remedy**, Acute nicotine poisoning associated with a traditional remedy for eczema, 500
- training**, A survey of neonatal resuscitation training provided to general professional trainees at neonatal units in England and Wales: *letter*, F225
Routine neonatal examination: effectiveness of trainee paediatrician compared with advanced neonatal nurse practitioner, F100
The outcome of specialist registrars in the southwest region: *letter*, 511
- transfer**, Outcome of very premature infants with necrotising enterocolitis cared for in centres with or without on site surgical facilities, F114
- transferrin receptors**, Cord blood transferrin receptors to assess fetal iron status, F46
Newborns have unique confounding factors regarding the TfR-F ratio: *letter*, F146
- transillumination**, Events before the diagnosis of a pneumothorax in ventilated neonates, F201
- triage**, Triage in the developing world—can it be done?, 208
- twin studies**, Genes and environment in asthma: a study of 4 year old twins, 398
- twins**, Respiratory distress syndrome and antenatal corticosteroid treatment in premature twins: *letter*, F77
- UK**, Advocating for children's health: a US and UK perspective, 180
- ulcerative colitis**, Inflammatory bowel disease, 435
- ulcerative laryngitis**, Severe upper airway obstruction caused by ulcerative laryngitis, 326
- ultrasound**, Asymmetry of fetal cerebral hemispheres: in utero ultrasound study, F194
Frontal horn thin walled cysts in preterm neonates are benign, F187
- unlicensed**, Medicines for children—the last century and the next: *current topic*, 177
- urinary tract infection**, DMSAs after UTI—scan more children, not less: *letter*, 348
The significance of interleukin 8 in urine, 256
- urine specific gravity**, Dipstick measurements of urine specific gravity are unreliable, 155
- USA**, Advocating for children's health: a US and UK perspective, 180
- utilisation**, Recent trends in hospital use by children in England, 203
- vaccine**, MMR vaccine—worries are not justified: *leader*, 271
Safety of a new conjugate meningococcal C vaccine in infants, 391
- validation**, Development and initial validation of the EDIN scale, a new tool for assessing prolonged pain in preterm infants, F36
- varicella**, An intradermal skin test for determination of immunity to varicella, 484
Varicella vaccination—a critical review of the evidence: *current topic*, 83
- vasculitis**, Peripheral gangrene during infancy: a rare presentation of systemic lupus erythematosus, 335
- vena cava**, Long term complications of inferior vena cava thrombosis, 228
- venous cannulation**, Radial osteomyelitis as a complication of venous cannulation, 408
- ventilation**, A randomised controlled trial of two methods of delivering nasal continuous positive airway pressure after extubation to infants weighing less than 1000 g: binasal (Hudson) versus single nasal prongs, F82
Events before the diagnosis of a pneumothorax in ventilated neonates, F201
- vertebral collapse**, Vertebral compression fractures in acute lymphoblastic leukaemia and remodelling after treatment, 492
- very low birth weight**, Early intracardiac thrombosis in preterm infants and thrombolysis with recombinant tissue type plasminogen activator, F66
Effect of maternal tocolysis on the incidence of severe periventricular/intraventricular haemorrhage in very low birthweight infants, F13
Quality of life in young adults with very low birth weight, F165
- vigabatrin**, Vigabatrin associated retinal dysfunction in children with epilepsy, 469
- V_A/Q**, Non-invasive assessment of shunt and ventilation/perfusion ratio in neonates with pulmonary failure, F127
- viral infection**, Reye syndrome—insights on causation and prognosis: *leading article*, 351
- virus**, Hospital acquired computervirus infections, 496
- vision**, Visual outcome of malignant hypertension in young people, 401
- vitamin D receptor**, Genetic determinants of bone mineral content in premature infants, F214
- weight**, Growth study of cri du chat syndrome, 337
- wheeze**, Persistent wheezing in infants with an atopic tendency responds to inhaled fluticasone, 143
- wheezing**, Total serum IgE and outcome in infants with recurrent wheezing, 23
- whiplash shaking injury**, Thomas Willis: the first paediatric neurologist?, 506
- white matter**, Hydrocephalus—what's new?: *leading article*, F149
- withdrawal**, Neonatal paroxetine withdrawal syndrome or actually serotonin syndrome?: *letter*, F147
- withdrawal of treatment**, Consent to autopsy for neonates, F4
Lingering death after treatment withdrawal in the neonatal intensive care unit, F8
